

Company Profile

Est. 1985 to Current

**Four Decades of Excellence:
Honouring Our Legacy,
Embracing the Future**

OUR BACKGROUND

Multi-Locking, now 40 Years in the security industry, is one of the leaders in modern Locking, Access Control and CCTV technology.

We are a level 2 B-BBEE company.

We strive to combine Cutting edge technology, skills and Service Excellence.

Striving to maintain local and international standards.

Provide customers with single and turnkey security solutions, while supplying local and imported security products.

Subscribes to quality control organizations who set stringent standards on products and installations, including SAIA, LASA, ISO and PSIRA Certification

Available 24/7

OUR MANDATE

Our Vision

To become the recognized provider of advanced security and infrastructure solutions in the country and within the Sub-Sahara region.

To maintain the same level of service excellence and quality, we have sought to uphold... for over 38 years.

Our Mission

To become the most respected security supplier, in the Sub-Sahara region.

To continue our goal of developing and contributing to the securing of South Africa's future.

OUR PROJECT STRUCTURE

PIMA Alarm Equipment

We are the Sole Importer and Distributor of the PIMA Alarm Equipment in South Africa, since 2024.

About PIMA

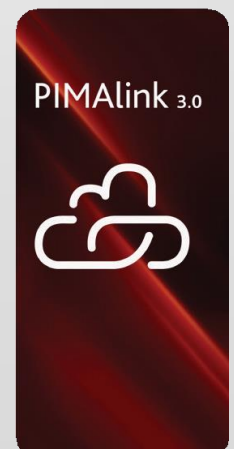

PIMA Electronic Systems is a leading developer and manufacturer of intruder alarm systems. Its portfolio of high-quality wired, hybrid and wireless alarm systems ranges from small and economic systems to advanced multi-zone ones.

PIMA's systems support a wide range of communication solutions and offer easy and fast programming features to suit all types of installations. PIMA's monitoring hardware and software solutions are deployed in professional sites in over 50 countries worldwide.

Founded in 1989, PIMA is a private company headquartered in Israel. All PIMA intruder alarm systems are designed to meet both residential and commercial applications and are easily expandable to grow alongside customer's security needs. PIMA's products are sold and installed by top tier distributors around the globe.

PIMA

Access Control Systems

With Access Control becoming increasingly relevant in South Africa. We have made the difference by producing a virtually indestructible casing for its Biometric units, catering perfectly for Africa's harsh environment. Finger, Pin and Card – Access Identification.

- *Uncompromised Access Control
- *Parking System Integration

- *Irrefutable Time and Attendance
- *Facial Recognition

CCTV Surveillance Systems

From planning and design, to project implementation with customized, site-specific installations of all IP or Analog Systems. This includes the remote transfer of data transmissions as in Virtual Barriers and/or Wireless M.E.S.H solutions; we take ownership of the entire process.

- *All-in-one Digital Video Recorder
- *BN Soft Evardy S1 Black Box
- *Mobi-Black Box
- *Rugged mobile DVR
- *Surveillance Cameras

Mul-T-Lock High Security Locking Systems

Mul-T-Lock® is a world leader in the design and manufacture of the Master Key System. Namely the unique key and patented 20 telescopic-sizes pin system. Because cylinders are made from stainless steel and nickel silver, it has been proven to be pick-proof and drill resistant by leading experts.

*Cylinders

*Padlocks

*Electronic Cylinders and Keys

*Existing Lock Systems Upgrades

*Product Innovations

Electronic Key Cabinets

Why Electronic Key Management Control?

1. **Security:** Only authorized users are able to access the electronic key management system. Customizable user access groups allow for tighter control of higher security keys. An unauthorized key removal triggers a permanent log entry as well as an email notification.
2. **Convenience:** Quick, easy-to-use web-based software shows what keys are in, what keys are out, and to whom they are issued. Upon checkout, the appropriate key is indicated on the panel by flashing LEDs. In addition, the KEYper® system allows you to return any key to any location in the cabinet, and then learns the key's new location.
3. **Productivity:** No more searching for, or replacing, lost keys! Always know who took which key, when.
4. **Reports:** Electronic key management reports can be generated and used to track business
5. **Accountability:** Complete audit trail and reporting by user and key activity. User accountability reduces lost keys. Fewer lost keys leads to lower expenses and improved security.

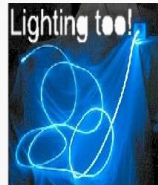

Fibre Optics

- Telecon – telephones, fibre to the home, wireless internet, computer networks and data centers.
- CATV – for video, voice and internet connections.
- Utilities – management of power grid and private telecom.
- Security – CCTV and intrusion sensors, military.
- Entertainment – video and audio.
- Intelligent Highways.

Solar Solutions

Installation of Solar Integrated solutions based on your individual requirements.

Intelligent Asset Tracking

We provide solutions to track moveable and at-risk assets (Vehicles, Computers, Machinery and Value Stock). Using a variety of GPS, RFID and pertinent technology to ensure you are not only in control, but also fully aware of your valuable assets, whenever you need to be.

Vehicle Access Control Systems

Mul-T-Lock® produced the world's first Gear-lock system and is certified by major insurance bodies. Our mobile fitment team can install and service the Mul-T-Lock® solution on-site or at your premises.

We manufacture Parking Poles, Wheel Clamps and even Container Locks, all engineered to ensure peace of mind when it comes to your personal or business vehicle or fleet.

*Car Transmission Locks – Top/Internal

*High Security Container Locks

*Kingpin Locks * Trailer Ring Locks *Parking Poles * Wheel Clamps

Accredited Training
